

## CSX's Chicago-Albany mainline in Ohio

**Unless stopped, CSX railroad's new CEO E. Hunter Harrison may single-track its Chicago-Albany mainline across Northern Ohio. This requires combining CSX's existing 60+ freight trains a day into 30 slower trains up to 3 miles long! And there will need to be 3-mile-long sidings roughly 10-15 miles apart for waiting trains. Ohio communities & farms will be cut in half at these roads/rail lines:**
